

## *Workshop Sampler*

CLAUDIA NELSON

Out of the hundreds of workshops which took place during the Meeting, we can unfortunately only report on a sample. Some of those which Isis members attended and found of particular interest include the workshops on "Women in Communications", "Violence against Women" and "Documentation Centers".

Ana María Portugal of "Flora Tristan" has written a brief history of the Meetings and their development from a small gathering of a couple of hundred to almost three thousand women.
