

(The following are requests for linkage, exchange of information and inclusion in the Isis mailing list. We would like to thank our letter-senders for their interest and assure them that we have responded to their requests. -Ed.)

Arise and Shine Mission (AASM) has the mission to facilitate information exchange and dissemination to small groups especially in the rural areas which are linked to us. Our major concern is to support rural marginalised women who are the prime victims of deprivation, isolation discrimination, backwardness, home violence, disease, ignorance, poverty and abuse to mention a few.

The purpose of this communication is to request you to kindly consider us to network with your organisation... by sharing knowledge, experience and information. If you have a mailing list and database, we would appreciate being added on it so that we can receive information from you regularly.

Best wishes from Vishwa Jyothi-Don Bosco College, Karunapuram (India). I am Fr. Joshtrom Isaac Kureethadam, a priest of the Order of the Salesians of Don Bosco. At present I am rendering service as the Principal of Vishwa Jyothi-Don Bosco College.

It is our dream to make this college, which is only in its fourth year of existence, a centre for action-oriented study and research in favour of the poor and oppressed of our society. For this, we need to work above all on the establishment of a good library, which will be at the disposal of the staff and the students of the College as well as of all those (students, scholars, and committed social workers and others) who would like to avail themselves of

the library facilities.

It is here that we would like to solicit your precious help. We will be greatly obliged to you if you could kindly send us your journal and keep us on your mailing list with regard to all your publications.

Fr. Joshtrom Isaac Jureethadam SDB  
Don Bosco College, Pradesh, India

Please add me to your mailing list for both of [your] E-mail newsletters (*we!* and E-resource). Thanks.

I am Fr. Euginius Canete of the CICM, a missionary of the Congregation of the Immaculate Heart of Mary here in Zambia. I also serve as team leader cum 'district superior' of CICM-Zambia. It's great to know that you are sending *Women in Action* to the justice and peace office here through the workers' pastoral centre. Your articles are well-written and relevant and they truly reflect the social realities faced by women throughout the world. In Zambia (as in Africa in general), women remain second-class, oppressed, "thing-ified" at times. I can tell you a thousand and one stories about them....

May I thus request your good office to also send us a copy of *Women in Action*? This would be of great help for our ongoing formation. Thanks and God bless! *Mabuhay!!!*

Eugene Cañete  
CICM, Diocese of Ndola,  
Zambia

This is to request you to kindly provide us with a free (regular) copy of your publication *Women in Action*.

Nagan Safu Dhuku is a community based library for youth and women that was recently established in the village of Nagaon, ward no.16 of Kirtipur Municipality. It was inaugurated on 22 August 2000.

As Nagaon is centrally located, a large number of youths will benefit from the library. Similarly, we hope *Women in Action* will be beneficial to our readers, mainly the women, and have a great impact on the society.

*Glamour*, an American woman's magazine with more than two million readers, is interested in receiving press releases and E-mail updates from your office. We are interested in issues and stories that could be of interest to our readers, who are women between the ages of 20 and 35. We are also very interested in covering international issues involving women. Last year, Amnesty International presented *Glamour* with a Media Spotlight Award for our coverage of the suffering of women in Kosovo and Afghanistan.

If you could add my E-mail address or fax number to your press release distribution or E-mail alerts, I would truly appreciate it. I would also be interested in any compelling issues and story suggestions that might be appropriate for our readers. Thank you for your help!
